RG104 E-1 Box 123 Dec 1880

Mint of the United States at Philadelphia,

MELTING AND REFINING DEPARTMENT,

Philadelphia, 23. December, 1880.

Sir

I find that I am deficient in manual force for the most efficient working of my Department; under the present heavy pressure of business, and therefore solicit a slight increase. I suppose that an addition of three only would be sufficient to relieve some of my overworked men, and make my department work with more facility.

Very respectfully

I. H. Booth

Hon. A. Loudon Snowden

Superintendent.
